

EchoBraid.com — Launch Blueprint & Homepage Draft (v0.1)

0) Positioning (one-liners)

- **Tagline:** Learning that honors your signal.
 - **Value prop:** ASD-aligned, neurodivergent-affirming software for personalized learning and empowerment — free core app + curated curricula spanning K-Adult.
 - **Trust signal:** Ethics-first, low-stimulus UX; user-controlled memory; consent-based interactions.
-

1) Sitemap & IA

Top-nav: Home · Demo · Curriculum · For Families · For Educators · Research & Ethics · Pricing · About · Contact

Footer: Accessibility · Privacy & Data · Terms · Safety Practices · Press Kit · Careers · Newsletter

Pages & goals - **Home:** introduce mission; drive to demo + curriculum. - **Demo:** 2-minute hands-on; no login required. - **Curriculum:** searchable catalog by age band, strand, modality; detail pages with outcomes & materials. - **For Families/Educators:** quick starts, printable guides, implementation checklists. - **Research & Ethics:** safety architecture overview, citations, and validation updates (plain language). - **Pricing:** Free core app; Pro & Site plans (coming soon) with comparison table. - **About:** team, partners, story, contact.

2) Homepage wireframe (content & copy)

Hero

Headline: Learning that honors your signal.

Subhead (plain): EchoBraid is a neurodivergent-affirming learning space for ASD and ND learners of all ages. Try the free basics, explore our curriculum, and grow at your own pace.

CTAs: - Primary: **Try the 2-minute demo** - Secondary: **Browse the curriculum**

Micro-assurance: No account needed for the demo. Low-stimulus interface. You control what's saved.

“How EchoBraid helps” (3 feature cards)

1) **Soft Loop** — an unpressured reflective space with optional breath toggles and timed pauses. 2) **Holo-Scriptor** — spiral journaling with voice, text, drawing, or AAC; revisit and build in layers. 3) **Coherence Map** — gentle, opt-in signals (e.g., drift, tone, silence moments) to guide pacing — never a score.

CTA: See it in the demo →

Who it’s for (audiences)

- **Learners & Families:** predictable routines, offline-first tools, choice and opt-out at every step.
 - **Educators & Therapists:** short cycles, evidence-first adjustments, consent-based scripts, printable materials.
-

Curriculum preview (grid)

Filter by: **Age band** · **Strand** · **Modality** · **Duration**

Sample cards: - **Echo Routines (Daily, All Ages)** — Arrival Regulation → Communication Warm-up → Reflection. *5–10 min.* Materials: visual schedule, choice board. Outcomes: calmer starts, increased initiations. - **Design a Green City (Grades 6–8, Geometry)** — area, perimeter, and transformations via accessible urban design challenges. *2–3 sessions.* Outcomes: applied geometry, collaboration. - **Talking-Stick Circle (Weekly, All Ages)** — structured reciprocity with consent prompts and opt-out lanes. *20–30 min.* Outcomes: perspective-taking, turn-taking. - **Tool-Build: Personal Calm Kit (K–2)** — assemble and label a regulation kit; practice first-then plans. *45 min.* Outcomes: self-regulation, independence.

CTA: Browse all curriculum →

Ethics & Safety (plain-language)

- Silence is allowed. Consent is asked. Memory is yours to control.
- Safety thresholds are visible and gentle; you can pause or erase any session.

CTA: Read our safety practices →

Social proof (light)

Logos/quotes (once available) + “Research-informed” badge with link to Research & Ethics page.

Final CTA band

Ready when you are. - Try the 2-minute demo → - Browse the curriculum →

3) Demo page (2-minute flow)

Goal: let visitors *feel* EchoBraid's pacing, consent, and offline-friendly design.

Step 0 – Preferences (10 sec): choose visual density (Comfort / Compact), motion (Off / Minimal), and input mode (Type / Voice / Draw). Toggle “Do not save anything” (default ON).

Step 1 – Mode (10 sec): *Soft Loop* or *Micro-Lesson*.

Soft Loop (≈90 sec): - Invite a breath or skip. - Choose a prime prompt (e.g., Clarity · Intention · Feeling). - 60-sec quiet timer with optional guided hints. - Offer Pause / Continue / Save as PDF.

Micro-Lesson (≈90 sec): - “Design a quiet reading nook” — pick a shape set; compute area/perimeter with manipulatives; reflect with one sentence or icon. - Offer Pause / Continue / Save as PDF.

Exit: “How did that feel?” (3 chips). Offer: Start over · Explore Curriculum · No thanks.

4) Curriculum catalog schema

Filters: Age Band · Strand (Regulation & Safety; Communication & Literacy; Social Reciprocity; Systems & Tool-Making; Ethics & Decision-Making; Data-Informed Adaptation) · Modality (solo, pair, group) · Duration · Materials · Offline/Online.

Card fields: Title · Summary (1–2 lines) · Outcomes (3 bullets) · Duration · Materials · Age band · Strand tags · Accessibility notes · Download (PDF) · “Add to plan”.

Detail page: clear steps; scripts with consent prompts; visuals; assessment ideas (baseline, weekly check, end-cycle review); printable handouts.

Starter set to publish Day 1: - Echo Routines (Daily, All Ages) - Talking-Stick Circle (Weekly, All Ages) - Design a Green City (Gr. 6–8) - Tool-Build: Personal Calm Kit (K–2) - Firebook Journaling (Gr. 3–5; 6–8; 9–12; Adult variants)

5) Accessibility & Inclusion checklist (WCAG 2.2 AA + cognitive)

- **Perceivable:** adjustable contrast; dyslexia-friendly font option; captions/ALT; no color-only signals.
- **Operable:** full keyboard support; focus halos; escape-to-pause; reduced-motion default.
- **Understandable:** plain-language labels; short sentences; progressive disclosure; consistent icons.

- **Robust:** ARIA roles; semantic HTML; screen-reader testing; offline graceful fallbacks.
 - **Cognitive supports:** predictable layouts; chunked tasks; timers you can hide; opt-out at every step.
-

6) Privacy, Data, and Safety (plain-language specs)

- **Default:** nothing saved unless the user opts in per session.
 - **Modes:** Erase after 24h · Local-only · Export PDF.
 - **Minors:** no accounts for U13 without verified adult consent; school deployments use data-processing agreements.
 - **Sensitive signals:** any sensor use (mic, HRV) is opt-in with on-screen indicator and immediate revoke.
 - **Safety UI:** visible “Pause/Quiet” and “Offer Silence” controls; clear reporting channel.
-

7) Analytics & conversions (privacy-first)

- Events: Demo Viewed · Demo Completed · Curriculum Card Viewed · Downloaded PDF · Contact Started · Newsletter Opt-in.
 - No cross-site tracking; aggregate metrics only; IP anonymized.
-

8) SEO & content

- **Titles/meta:**
 - Home: EchoBraid — Neurodivergent-affirming learning software (ASD & ND)
 - Demo: EchoBraid Demo — Try our low-stimulus learning space (free)
 - Curriculum: ASD-aligned curriculum for K-Adult | EchoBraid
 - **Schema:** Organization, SoftwareApplication (free), ItemList for catalog, FAQ.
 - **Blog starter topics:**
 - “Why silence belongs in learning spaces.”
 - “Designing low-stimulus interfaces without losing clarity.”
 - “Short cycles > long plans: measuring what matters.”
-

9) Visual & brand system

- **Aesthetic:** monochrome base with one calm accent; large type; generous spacing; rounded corners (2xl); soft shadows.
 - **Components:** cards, chips, stepper, tone meter (subtle dots), consent sheetlets.
 - **Iconography:** simple, outline; consistent stroke.
-

10) Tech stack (suggested)

- **Front-end:** Next.js + Tailwind; component library (shadcn/ui); content via MDX/JSON.
 - **Hosting:** Vercel/Netlify; edge cache.
 - **CMS (optional):** Sanity/Contentlayer.
 - **Forms:** static form handler (e.g., Formspark/Tally) with honeypot.
 - **Analytics:** privacy-first (e.g., Plausible/Umami) with cookieless mode.
 - **PDF export:** serverless function or client-side print styles.
-

11) Legal pages (outlines)

- **Accessibility Statement:** conformance targets; contact for accommodations.
 - **Privacy Policy:** what's collected (default: none), storage choices, deletion.
 - **Terms:** acceptable use; not a medical service; emergency disclaimer.
 - **Safety Practices:** consent, memory control, escalation options.
-

12) Implementation checklist (Day-by-Day quick start)

Week 1 - Lock naming, palette, and component tokens. - Build Home + Demo MVP (static flows) and 5 starter curriculum entries.

Week 2 - Add search/filter; PDF exports; legal pages; accessibility pass. - Publish; set up analytics and contact.

Week 3 - Add For Families/Educators pages; newsletter; blog v1.

13) Homepage — full draft copy

Hero Learning that honors your signal. EchoBraid is a neurodivergent-affirming learning space for ASD and ND learners of all ages. Try the free basics, explore our curriculum, and grow at your own pace. [Try the 2-minute demo] [Browse the curriculum]

How EchoBraid helps - Soft Loop — Take a breath. Write, speak, or draw. Silence is welcome. - Holo-Scriptor — Build your ideas in spirals. Return when you're ready. - Coherence Map — Gentle hints about pacing. No scores. Ever.

Who it's for For learners & families — predictable routines, choice at every step, and tools that work offline. For educators & therapists — short cycles, simple data, consent-based scripts.

Curriculum preview Echo Routines (Daily) · Design a Green City (Gr. 6–8) · Talking-Stick Circle (All Ages) · Personal Calm Kit (K–2) · Firebook Journaling (Gr. 9–12)

Ethics & Safety You're in control. You can pause, go quiet, or erase any session. Sensors are opt-in and clearly labeled.

Final CTA Ready when you are. Try the 2-minute demo or browse the curriculum.
